

# **Benefits and Costs of Prevention and Early Intervention Programs for Youth**

## **References**

This document lists the references used in the Washington State Institute for Public Policy's benefit-cost analysis of prevention and early intervention programs. Two accompanying reports, one summarizing the findings of the study and the other describing the sources, assumptions, computational methods, and estimates, are available on the Institute's website: <http://www.wsipp.wa.gov>.

The Washington Legislature created the Washington State Institute for Public Policy in 1983. The Institute is governed by a Board of Directors that represents the legislature, governor, and public universities. The Board guides the development of all Institute activities. The Institute's mission is to carry out practical, non-partisan research, at the direction of the legislature or the Institute's Board, on issues of importance to Washington State.
