Higher education

Open Educational Resources

The 2018 Washington State Legislature directed WSIPP to conduct a study on the cost of textbooks and course materials and the use of open educational resources at four-year institutions of higher education across the state. The study will address the types of required textbooks and other materials (including digital access codes and bundled items) and their average cost per student. WSIPP was directed to consider these materials and their costs as well as the use of open educational resources at each four-year institution and in specific degree programs or courses. The study will also include relevant information on best practices in the development and dissemination of open educational resources, to the extent possible.

The report is due to the legislature by December 1, 2019.

John Hansen, (360) 664-9085
